

The Essex Association of Change Ringers

Registered Charity Number 292250

Presents

The Twenty Second

The Course will be held at:

Honywood School, Honeywood Avenue, Coggeshall, Essex
CO6 1PZ

from

Thursday 12th April to Saturday 14th April, 2012

Course Founder:- Adrian Semken

Course Organiser:- Mary Bone (01279 726159)

Helpers Administrator:- Hilary Donoghue (01277 656346)

Towers Administrator:- Fred Bone (01279 726159)

Contact Address: 11 Bullfields, Sawbridgeworth, CM21 9DB

The host Association is **The Essex Association of Change Ringers**

Association Master:- **Brian G Meads**

Association Honorary Secretary:- **Vicki Chapman**

APPLICATION PROCEDURE

Applications to join the Course must be made on the application form only to Mary Bone before the closing date of 17th February 2012. Each application **must** be accompanied by the deposit or full fee and a self addressed, stamped envelope for your reply. The balance of any outstanding fees is to be paid at Reception on the first day of the Course. Applicants who will be under the age of 18 at the date of the Course must have their application form signed by their parent or guardian. Please ensure that you have read the Course's Child Protection Policy.

If you are suffering from any medical condition which may affect you during the Course you should indicate this on the application form. In particular you should bear in mind that the majority of practical ringing will be upstairs.

COURSE FEES

The fees for Basic Tuition are £45.00. This includes all lectures, demonstrations, practical session tuition and tower donations. For Junior Members of the Essex Association the Basic Tuition fee is £30.00; the subscription must be paid before the application closing date. The minimum deposit is £20.00.

SOCIAL

Entry to the Friday evening social is also included. Those wishing to attend the social who have not been a student or helper or participated in the course in any way are welcome to join the social for a nominal fee of £5.00 paid to the Course Organiser prior to the social. As well as a buffet supper and free soft and alcoholic drinks, the social has a variety of fun things to do and silly games to take part in, and is suitable for all ages.

PLEASE TAKE NOTE

If you withdraw from the course after the application closing date and your place cannot be filled by an unsuccessful applicant it will not be possible to refund your deposit.

Cheques must be made payable to "The Essex Association of Change Ringers".

Applications and all moneys received will be acknowledged **after** the application closing date and applicants **must** provide a stamped, self-addressed envelope (**C5 size - 229 x 162mm**) for this. Please do not contact the Organiser before the closing date for information on the progress of your application. Decisions cannot be taken until that time.

Applications are grouped according to first preference where possible. If groups cannot be filled, or are oversubscribed, the second choice group will then be used to attempt to allocate a space. However a group which is under subscribed may have to be cancelled if the resources can be more efficiently used for another group.

In view of other ringing courses that take place elsewhere in the country (eg Hereford) at

this time please do not apply for more than one course.

GENERAL INFORMATION

Honywood School is located within the Honeywood Estate on the northern side of Coggeshall, to the west of the Earls Colne Road (B1024) and south of Coggeshall bypass (A120). National Grid Reference TL853233, O.S. Landranger sheet number 168. On arrival students should report to the Reception Point which will be clearly signed. There is a large car park at the School with access from Honeywood Avenue.

The Course is essentially non-residential; any applicants who require accommodation should make their own arrangements with their hosts as soon as they have been advised that they have been successful in gaining a place on the Course.

Students should bring a supply of lined or squared paper, any book containing the method(s) to be studied, and a piece of rope if splicing instruction is required. Sets of handbells may be useful although some sets will be available.

The Association Bookstall will be open periodically during the course; Central Council and some other publications will be available. Tutors will be only too pleased to give advice about books.

Tea and coffee etc. will be available at the school at set times in the morning and afternoon each day. In addition a light tea is provided on the Thursday evening and a meal at the Course Social on the Friday evening. All refreshments are included in the Fee.

Groups usually take lunch at a local pub close to either the morning or afternoon tower, as this allows useful discussion and advice to continue over the break. These days it is extremely rare for pubs to have any problem with young people being part of the group, and young people should, if possible, budget for a pub lunch each day. If, however, any group member intends to make their own arrangements for lunch, or to bring sandwiches, you must let your group tutor know when you arrive at the school so that they can take this into account in making their arrangements for the group.

HELPERS

Reasonably experienced ringers are required as "helpers" at the practical sessions. No course fees are charged for helpers and they are entitled to attend any of the lectures and other Course functions when they are not required elsewhere. Helpers should be able to ring touches inside reliably to the method groups to which they are assigned (groups D and above) or ring reliably in at least the next higher group for groups A - C.

TUITION AVAILABLE ON THE COURSE

It is essential that you read the details of the various practical Groups available as detailed overleaf before you complete the Course Application Form.

It is equally essential that you do not over-estimate your ability. Please note that the first practical session is intended partly to ensure that ringers are in a suitable Group - a

Group in which they can obtain maximum benefit from the Course without attempting too big a jump in their progress. Please assist us by providing a description of your ringing during the last three months (practices or courses attended and what you have rung).

The emphasis on competence in the notes on the course is quite deliberate. If you are in a group for which you are not yet ready you will, as a consequence, not make the progress intended and progress of others in that Group will be hindered. The Course Management reserve the right to ask you to change groups if it is felt appropriate. The aim is for all students to make significant progress and to enjoy their practical sessions.

PRACTICAL RINGING SESSIONS

The Course will be divided into Groups for practical sessions as below, one of which must be chosen on the Application Form. Please indicate a second choice in the space provided, unless no other Group is at all suitable. Successful applicants will be placed in their first choice Group if at all possible, but some flexibility in placement will allow the maximum number of students to benefit from the Course. Depending on the number of applicants, a Group may be divided for both the theory and practical sessions. It is Course policy that, in this case, applicants from the same tower will be placed in different groups.

GROUP A – Improving foundation skills. Have you reached the stage in your early ringing career where even if you understand the theory of what you are meant to be doing you are finding doing it an entirely different matter? If so this group is for you. Students in this group will work on their individual ringing skills so that they can improve their bell control, listening and ropesight. This may require time working alone on a bell as an individual with the advice of your tutor, as well as ringing with other ringers.

GROUP B - A Group for those who can ring Rounds competently and who are ready to take their first steps in **call changes** and then, possibly, in change ringing on 3 or 4 bells. If you are in any way doubtful about joining Group C, then join Group B; you will still find something to learn and will have the opportunity to fill in steps in your ringing education you may have missed or not appreciated.

GROUP C - A Group for those wishing to **plain hunt on 5**. The opportunity to practice on different rings of bells and in different orders both on the treble and "inside" will be provided. The Group will emphasise the skills required for change ringing and will be learning ropesight and considering striking, as an essential preliminary to ringing the treble. Practice may be given at ringing the treble to Bastow, Minimus and Doubles, to "Stedman Quick Sixes" and to Plain Bob Minimus as appropriate, before progressing to ringing the treble to Plain Bob Doubles.

GROUP D - A Group for those who really have ropesight and bell control and are ready to ring the **treble to Grandsire Doubles and Plain Bob Minor**. It is intended to progress to ringing the treble to touches in both these methods.

GROUP E - A Group for those who are competent in ringing skills as outlined in the above groups and wishing to learn **Plain Bob Doubles** on an **"inside"** bell.

GROUP F - A Group for those who are competent in ringing skills as outlined in the above groups and able already to ring touches of Plain Bob Doubles and who wish to learn **Plain Bob Minor "inside"**.

GROUP G - Grandsire: Starting with Doubles and progressing to Triples with calls. Applicants must be proficient in ringing the treble to Grandsire and be able to ring touches of Bob Doubles "inside" to get the full benefit from this option.

GROUP H – Beyond Bob Minor: .The Group will study and practise several Plain Minor methods (Single / Double Court and Oxford) which introduce many of the building blocks and concepts needed before progressing to Surprise. Methods such as St Clements and Little Bob may also be included. Applicants must be able to ring touches of Plain Bob Minor on an inside bell competently.

GROUP I - Stedman: Starting with Doubles, progressing to Triples with calls and theory on extension to Caters and Cinques. You should be proficient in ringing up to Group G to get full benefit from this option.

GROUP J – Introduction to Surprise Major: To get the full benefit from this group applicants must be able to ring Plain Bob Major "inside", be able to 'treble bob' proficiently and have some experience of Treble Bob or Surprise Minor. The Group will start with Cambridge Major and move on to Yorkshire.

GROUP K – Calling & Conducting Touches : This Group will start with calling Plain Bob and Grandsire Doubles, and progress to Plain Bob and possibly other Minor methods. Students will be actively involved in calling a variety of touches, and will be expected to ring whilst others of the Group are calling. No previous experience of calling is required, but you must be able to ring touches of Grandsire Doubles and Plain Bob Minor "inside" competently.

GROUP L – Teaching Bell Handling & Ringing : This group is for those involved or interested in teaching the foundation stages of ringing, from basic bell handling to first steps in change ringing. A number of tower management topics will additionally be included.

LECTURE OPTIONS

Apart from the main Group lectures there will be other lectures on a variety of subjects which may include some of the following:

- Change ringing on handbells
- Rope splicing
- Bell maintenance
- Insight to place notation
- Raising and lowering a single bell
- Raising and lowering in peal
- Calling call changes

Calling simple touches

Achieving good striking (A progressive series of talks)

Conducting and coursing orders

Understanding basics such as the "blue line"

Method extension – how to turn minor into maximus

etc. etc.

Attendance at these is a matter of personal choice. Some sessions may require a limited number of attendees; lists will be placed on the notice boards to enable you to sign up during the first coffee break. If you are interested in these groups, please sign up early.

A detailed programme will be forwarded to all successful applicants.

Closing Date for Applications

Friday 17th February 2012.

For your notes:

Application to join the **Essex Ringing Course 2012**
presented by The Essex Association of Change Ringers
Registered Charity Number 292250

Please print and complete this form then return with Stamped, Self-Addressed Envelope (C5 size) and your deposit or full fee by 17th February 2012, to:-

Mrs Mary Bone
11 Bullfields
Sawbridgeworth
CM21 9DB
